## EDUCATION

### University of Washington, Seattle

September 2020 – June 2024 (expected)

*Bachelor of Science in Computer Science, Minors in Mathematics and Nutrition*

GPA: 3.86/4.0

- **Selected Courses:** Data Structures, Algorithms, Distributed Systems, Databases, Networks, Machine Learning
- **Gary A. Kildall Endowed Scholarship:** Awarded to 2 outstanding CSE undergraduates based on academic merit out of 400+ applicants

## EXPERIENCE

### Amazon Web Services (AWS)

June 2023 – September 2023

*Software Development Engineer Intern*

*Seattle, WA*

- Engineered a synthetic data generator that protects customer data, processing 60000+ files in minutes via Pandas.
- Parallelized workloads across 1000s of Lambda functions using Distributed Map, slashing processing time by 80%
- Employed DynamoDB as temporary data storage, implementing a Time-to-Live strategy to reduce stored data volume and increase resource management efficiency.
- Programmatically defined 20+ resources via AWS CDK, enhancing scalability and automating provisioning.

### TEDxUofW

December 2021 – May 2022

*Web Developer*

*Seattle, WA*

- Created Vue.js and TypeScript-based "Speakers" page for a local TEDx conference site. Developed components like navbar, footer, and info cards, resulting in a website that drew 300+ attendees and achieved 1200+ YouTube views.

## PROJECTS

### COVID-19 Vaccine Scheduler | *Java, SQL, Azure, Java JDBC*

August 2022

- Developed an interactive portal enabling caregivers and patients to manage appointments, upload availability, and modify vaccine supply status.
- Utilized Azure SQL database to efficiently manage and store critical data, including vaccine details, scheduling information, and secure user logins.

### Donation Buddy: SWEHacks Winner | *Google Maps Javascript APIs, React, Bootstrap*

April 2021

- Created donation mapping page where users can find relevant nearby donation sites on a custom map built atop Google Maps Javascript API, Google Place API, and Geocoding API
- Wrote algorithm for API calls and filtering/selection logic and built frontend using React and Bootstrap

## LEADERSHIP & INVOLVEMENT

### Allen School Diversity, Equity, and Inclusion Committee

November 2022 – June 2023

- Furthered DEI efforts at the Allen School by leading the department's first Mental Health Awareness Campaign, promoting K-12 outreach, and conducting teaching professor interviews

### COM<sup>2</sup>: Computing Community (Prev. UW ACM Chapter)

November 2020 – June 2023

*Chair*

May 2022 – June 2023

- Led the largest student organization in the Allen School (1300+ members) to run research nights, social events, and mentorship program for hundreds of attendees
- Led a team of 21 and engage with school leadership to improve diversity, equity, and access via student-led advocacy, events, and cross-club collaborations

*Social Events Coordinator*

May 2021 – May 2022

- Spearheaded planning and execution of quarterly Allen School social events for 450+ students, faculty, and staff

*Associate Officer*

November 2020 – May 2021

- Led and organized social, academic, and career events to build community within the Allen School

## SKILLS

**Languages:** Java, Python, C++, C, JavaScript/TypeScript

**Technologies/Frameworks:** SQL, Linux, Git, React, Vue.js, JUnit, AWS Lambda, S3, DynamoDB, AWS Step Functions, Eventbridge, AWS Cloud Development Kit (CDK), Flask

**Libraries:** Pandas, Pyarrow
